## How to Ride on KATS

- 1). Use the maps (the system map is an overview of all transit routes).
- 2). Plan your trip step by step by using KATS new Google Trip Planner Feature on the homepage at [www.KingsportTransit.org](http://www.KingsportTransit.org).
- 3). Determine your destination. Decide which of the colored routes and stop is closest to your location and then you can plan your trip.
- 4). Go to the appropriate page that shows your colored route.  
Tables will display times the bus makes stops at major locations along the route. Arrows on the map show the direction the bus is heading. Read the timetables from left to right for outbound trips and right to left for inbound trips. Many additional stops are located along the routes. Check the timed points in the timetable for the stops just before and after your desired location's stop in order to allow yourself enough time.
- 5). My destination is on another route. Need a Transfer?  
Transfers between two buses are very common to reach your destination, and it is free on a one-way trip. When you require a transfer, simply request a transfer from the driver when disembarking from the bus. When you board the second bus you must hand the driver the transfer when boarding. Transfer points are identified on the map.
- 6). Transit buses only pick up at KATS designated stop locations. You may disembark from the bus anywhere along the route, provided your driver deems the drop off location is safe.

## How to Read the Time Tables

When reading the time tables the outbound route reads from left to right and the inbound route reads from right to left. Just follow the direction of the arrows beside the times.

The small time tables to the left of the maps are a little different. The time points indicate the minutes after each hour that a bus will arrive or depart from that location. For example, if the time table says Transit Office- :30 (outbound) :24 (inbound), it means the bus will depart from the Transit Office at 7:30, 8:30, 9:30 and so on throughout the day. It will arrive at the Transit Office at 8:24, 9:24, 10:24, and so on until the end of the day.

KATS offers the ability for riders to track fixed-route buses in real time on the Ridesystems mobile app available for download to a smart device from The App Store or Google Play. If your device does not automatically detect your location, search for "Kingsport Area Transit" from the list of transit agencies.

## Accessible Services

All KATS buses are lift-equipped and wheelchair accessible to passengers, please ask your bus driver if you need assistance in boarding, exiting and securing your chair. All mobile devices must be secured while traveling. All KATS information is available in Accessible Formats upon request. If a disability prevents you from using KATS fixed-route transit, our Dial-a-Ride 65/ADA service is available for individuals within the city limits of Kingsport who qualify through our Dial-A-Ride 65/ADA application process. For more information about this service, please contact a representative at 423-224-2613.

Requests for ADA reasonable modifications may be submitted and will be processed upon request. For more information on the "KATS Reasonable Modification Policy", please visit our website at [www.KingsportTransit.org](http://www.KingsportTransit.org).

## Designated Priority Seating

- 1). People using wheelchairs and motorized mobility aids have **FIRST PRIORITY** for the designated priority seating area.
- 2). People with disabilities, walkers, service animals and seniors have **SECOND PRIORITY** for the designated priority seating area.
- 3). Children in strollers have **THIRD PRIORITY** for the designated priority seating. Children may remain in their strollers in the designated priority seating area unless an individual of a higher ranking priority should need that seat. At this time, parents may be asked to fold the stroller and move to another seat. The stroller will fit if it is small and can be stored in the seating area without extending into the aisle.

\* Priority seating is required because designated seats are limited and in high demand. Individuals using wheelchairs or scooters are unable to stand and fold their equipment.

## Carry-On Items and Carts

Passengers must limit carry-on items and carts to no more than what you can **SAFELY** and **SECURELY** stow on your lap. Carry-on items and carts must not block the aisle or occupy another seat. Passengers must be capable of transporting personal items on the bus without assistance and in one boarding.

### Strollers:

Strollers may be used on KATS buses; however, you must adhere to the Designated Priority Seating policy and size limitations.

### Stroller Size Limitations:

- The maximum size for a stroller is 48" long by 24" wide.
- Oversized strollers will not be allowed on buses. An oversized stroller is anything larger than the stroller measurements as stated above. Most jogging strollers are oversized, and cannot be accommodated on KATS.
- KATS does not allow play buggies such as plastic pull-along cars or wagon carts at any time.
- Strollers not carrying a child cannot be accommodated.
- The bus driver has complete discretion to operate the bus in a safe manner. If the driver thinks that carry-on items, carts or strollers compromise safety, they may direct the passenger to move items to a safe location or refuse to transport the items.

## Take Your Bike on the Bus

KATS provides bike racks for your convenience on the front of the buses. It is **FREE** to bring your bike with you. Space is provided for two bikes per bus and available on a first-come basis. Unfortunately, bikes are not allowed inside the bus, so if the rack is full you may have to wait for the next bus. Only conventional, single seat, standard size, non-motorized, normal tires, two wheeled bicycles are allowed on the bike racks.

### How to Load and Unload Your Bike

Squeeze handles  
and pull down rack

Place bike in rack slot

Grasp support arm...

...and pull over tire
